NEW YORK, Sept 5.-There was a slight recovery in the English tin market, and closing prices there showed spot at f147 10s, and futures at f146 15s. Locally the market was steady, with spot quoted

at \$2.4931.50.

Copper also was a shade firmer abroad closing at 470 5s for spot, and f70 2s 6d for futures. Locally, however, it was somewhat unsettled, with buyers refusing to follow the recent advance and reports current of small transactions at a shade under recent prices. Lake and electrolytic are quoted at \$16253616.75, and casting copper at \$15.8753616.375.

Lead was quiet at \$1.8894.99 on the local market, but joined in the general advance abroad, closing at \$11.78 6d in London.

Boston Wool Market.

Boston Wool Market.

BOSTON, Sept. 5.—A quieter tone prevailed in the wool market, with the prices firm. The large buyers are well stocked and great activity is not looked for until they come into the market again. Certain grades of wool are also becoming scarce, especially Oregon, both Western stapies and valley. A large part of the demand for Territory wool continues to be for lots in the original bags. Pulled wools are selling fast. Foreign grades are strong. Territory quotations follow 18ab.—Fine, 22023c; heavy fine, 19931c; fine medium, 23621c; medium, 23637c; low medium, 23637c.

# WHEAT TAKES FALL ON CHICAGO MARKET

Early Bullish News Fails to Sustain Sagging Tendency of the Cereal.

CHICAGO, Sept. 5. - Weakness developed in the wheat pit during the first hour of trading to-day. At the start sentiment was a trifle bullish as a result of firm cables. Initial quotations on December were a shade lower to 464c higher, at 8146614c. On fair demand commission houses, December touched \$14,081%c. A reaction, however, soon set in, resulting in a decline of over 15c a bushel. Selling by cash houses, influenced by liberal receipts at Minne-apolis, was a feature. Arrivals of wheat today at Minneapoils were \$38 cars, compared with 650 a year ago. Another factor, apparently overlooked earlier in the day, was the large exports of wheat from Russia shown in the world's shipments. Notwithstanding numerous reports of crop failure in Russia, shipments from that country during the preceding week were 4,22,000 bushels, out of a total movement of 3,354,000 bushels. The market was further depressed by an increase of 1,416,000 bushels in the amount of bread-stuffs on ocean passage. Nearing the close a decline of about a cent in the price of cash wheat at Minneapoils caused additional selling of option months here. For December the lowest point was reached at \$1981\(\frac{1}{2}\)\(\frac{1}{2 today at Minneapolls were \$38 cars, com-

Stock Market Letters.

Stock Market Letters.

James A. Pollock & Co., stock and grain brokers, i West Second South street, make public the following letters on the stack market:

T. A. McIntyre & Co., New York, say:

The recovery in the stock market today was a perfectly natural and logical movement. A rally extended about one point throughout the list, with a rise of 4 points in smelters and Canadian Pacific and a five-point advance in Reading helping it slong. We are more likely to have a two-sided traders' market for moderate turns pending further developments which will insure the stability of conditions in the money market."

Marshall, Spader & Co., New York, say:

'In the course of events we may look to see a change for the better as a result of crop returns and business activities. Meantime we advise caution in operating and a reasonable disposition to accept profits."

and a reasonable disposition to accept profits."

Huttons & Co., New York, say "Never was there a better indication that stocks were well bought on last week's facilines than the action of the market loday. The various securities that were subjected to the bitter attack of bucket-shop interests lost week showed the heaviest advances in today's market and in fact the whole list give the appearance of being oversoid. We have reason to believe that the future market will be one of stability and that operations should be conducted on the lines of buying any of the good securities on weak spots and on any sharp advances profits should be taken."

on any sharp advances profits should be taken."
Dick Bros. New York, say: "The market was very strong this morning, the whole list advancing sharply on urgent buying for both accounts. There was an absence of selling pressure until in the afternoon, when stocks began to be supplied in fair volume. This checked the edvance and caused reactions, but the list leter became dull and was generally firm at the closing. There was no news of importance. Call money did not get above 25, per cent. Lawson put on another telegram, which, however, had very little influence. The strong features were Union Pacific. Southern Pacific, Smelters, Canadian Pacific and Reading."
Logan & Bryan, New York, say: "Market closed somewhat nervous, but the though the tone is much improved. The sharp advances in Canadian Pacific, Reading and Smelters represent a trouncing of the bears and undoubtedly contributed somewhat to the nervousness of the rest of the list. The sustained improvement coming after list week's selling pressure is very gratifying and seems to indicate that tooks generally specific.

provement coming after hast week's sell-ing pressure is very gratifying and seems to indicate that stocks, generally speak-ing, are in strong hands. It would be too much to expect prices so soon to make any great headway on the upside. A gradual improvement, however, seems to be the general opinion among conserva-tive houses."
